

Assistant Director – Growth, Enterprise and Environment

Salary £81,903

We are looking for a strategic thinker who will help create and maintain wonderful places and improve the quality of life of our residents.

You will be creative and imaginative and, above all, someone who makes life-enhancing things happen.

We want someone who aspires to be a Director of the future – the successful candidate would deputise for our Corporate Director across the directorate, and whilst we need excellent experience in Neighbourhood Services – we would like you to be able to work across the economic growth field too, where numerous exciting challenges exist.

You will embrace and lead hugely important and high-level projects, such as carbon reduction and waste management, working in close partnership with key stakeholders and the public.

You will cherish the highest standards in keeping our Borough clean and green and clearly see the potential in bringing growth and prosperity to our diverse communities.

In short, you will be as ambitious for our area and its people as you are for yourself. In return we offer an excellent working environment with career enhancing opportunities.

Closing date: 15 July 2019. For a confidential discussion, please contact our retained consultants at Penna, Nick Raper on 07715 690463 or Helen Alwell on 07809 905467. For more information, visit jobs.redcar-cleveland.gov.uk
